

Introduction

The Recruitment Agencies Monitor, initiated by Federgon RSS and carried out by InSites Consulting, continuously tracks the performance of individual RSS agencies and the overall RSS sector.

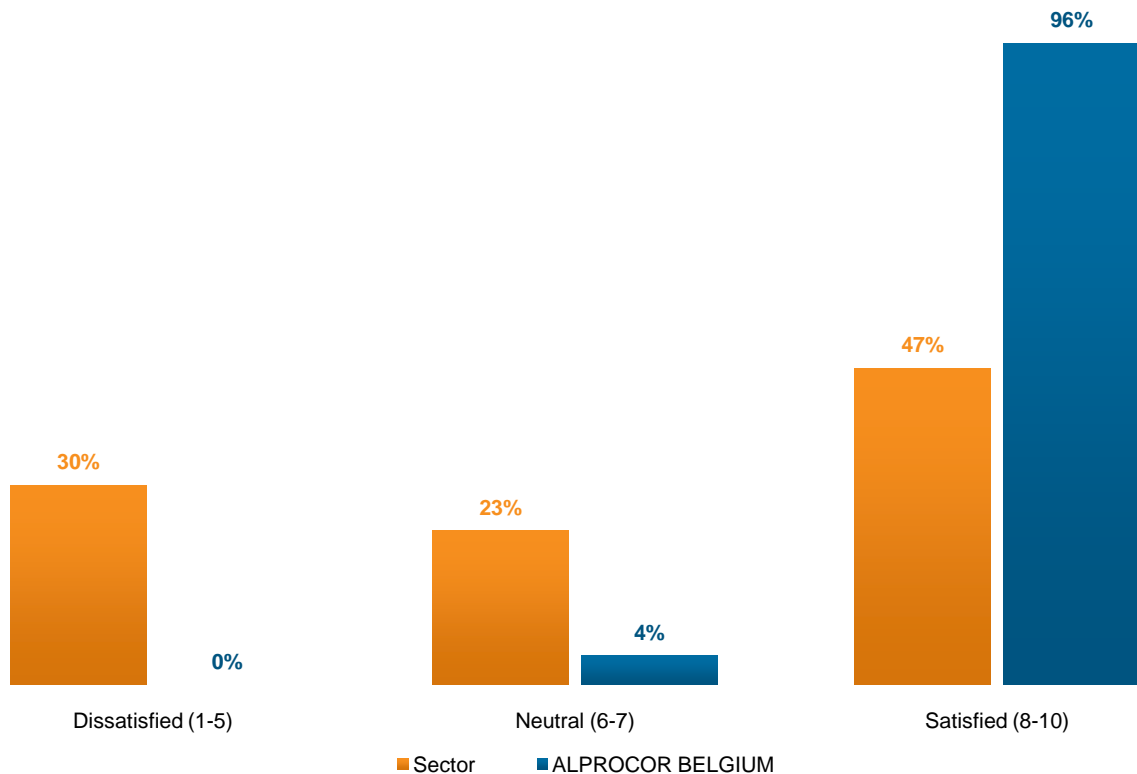

Applicants that went through a selection procedure were invited afterwards to participate anonymously in an online questionnaire to evaluate the experience they had with that RSS agency. Respondents were asked to give a general evaluation and a more detailed evaluation on 5 specific dimensions: Information – Tests – Treatment – Feedback / Follow-up – Impact.

Below you can find the aggregated sector results and the results of your company (if you were at least evaluated by 10 respondents). The data were gathered between 23/01/2008 and 4/01/2010.

Results

Evaluation - General

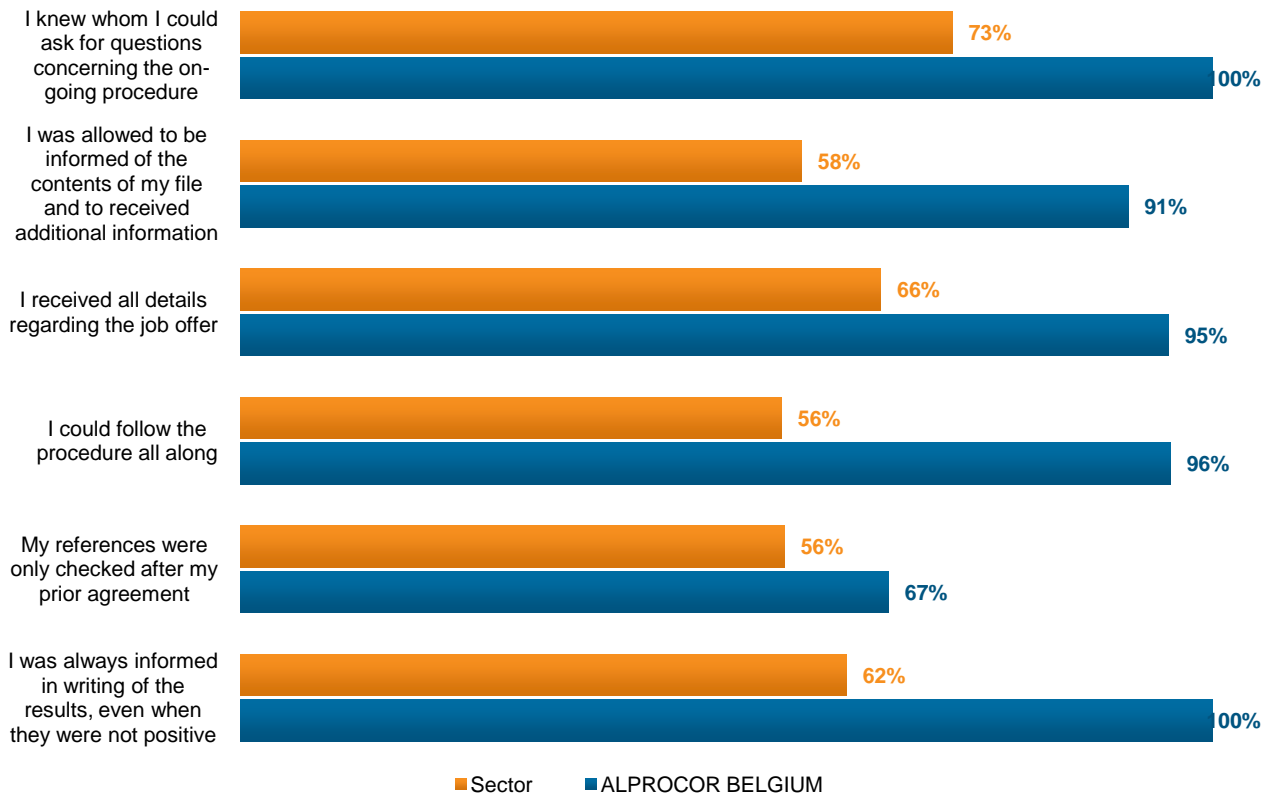

Average score sector: 6,6 / 10 - Average score ALPROCOR BELGIUM: 9,6 / 10

N sector = 1498 respondents / N ALPROCOR BELGIUM = 23 respondents
